

**"VICTORY PANORAMA"**  
IN LOAN PARADEMethods and Equipment of War  
Machine to Be Shown on  
Spectacular Floats.

The big spectacular event of the Victory Loan drive will be a "Panorama of Victory" on Saturday, May 2. It will be a procession of floats on Fifth Avenue, from 110th Street to Washington Square, showing the methods and the equipment and tools of every branch of America's war machine.

One division of floats, called "The Breath of Death," will show for the first time in public many of the secrets of the chemical and gas warfare. The manufacture of poison gas, the filling of shells, the making of gas masks and the training of soldiers to use them will be demonstrated. Floats will carry Stokes mortars that shot molten metal, blazing phosphorus and poison gas on German machine gun nests.

The Air Service will have twelve floats, carrying all types of American and foreign planes and motors. The Motor Transport Service will show at least one of every type of vehicle used. The principal types of American-used field artillery will be carried, and there will be some of the big guns of the coast defense. The cavalry will have three floats.

The Medical Service will be represented by floats showing first-aid dugouts on the front line, field hospitals, ambulances, litter bearers and operating rooms. The Engineer Corps will have floats on which they will build bridges and pontoons, dig trenches and build miniature forts as if under fire.

The Signal Corps will show radio apparatus, searchlights, photographic plants, map printing outfits and telephone equipment.
